Hello Mickey and Gary:

Mickey: FYI I met with Gary Moore yesterday and the stuff we looked at is pretty much the same as expected. I will work on the pricing for lab packing, consolidating and disposal of the individual sample bottles etc. Not sure how much waste will be generated so as I am putting my quote together it will be based on two days of service and an estimate on the quantity of material to be disposed. Thanks so much for allowing C4 Env. the opportunity to present pricing on this project.

Gary: I have spoken to several of our employees that worked at CES and no one seems to know anything about those ceramic plates. I have a couple others that I will ask and show them a picture, I will let you know.

Thank You,
Gary Brauckman

Gary,

Please provide me with a cost proposal to address the Lab Packs at CES. The Trustee has approximately \$40K left to address issues at the site. You will need to coordinate site visits with the EPA (Gary Moore 214.789.1627). Should you be capable of addressing other issues within the \$can \$40K limit please include them in your cost proposal. Gary can outline you on his priorities. Should you have any questions contact me at 936.856.7314.
